Notice of Supplemental Distribution of a Registered Pesticide Product

Instructions

Registrants may distribute or sell the products under another company's name and address instead of (or in addition to) their own after obtaining final registration. Such distribution and sale is termed "supplemental distribution" and the product is referred to as a "supplemental registration" or "distributor product". The distributor, also known as a "sub-registrant," is considered an agent of the registrant. Both the registrant and the distributor may be held liable for violations pertaining to the distributor product.

A Notice of Supplemental Distribution of a Registered Pesticide Product must be submitted by the basic registrant for each distributor product. The basic registration number and the distributor company number must be shown. If a potential distributor does not have a company number assigned, the registrant should have the distributor review the information at: <https://www.epa.gov/pesticide-registration/pesticide-registration-manual-how-obtain-company-number-and-register-official> or submit a written request on the distributor company's letterhead and mail to the address above prior to submitting this form to the agency. The completed form must have the concurrence and signature of both the registrant and the distributor.
